The Management

DATE:

February 17, 2025

Spoiler alert : We're moving!

A new chapter is beginning for our company! As you know 2025 is a milestone of our history and we are thrilled to announce that we have begun our **major transition to a new site**. This Monday, February 17, 2025, our **Cutting Tools** department led the way by initiating the move, marking the start of a carefully planned phased transition.

Our priority? **Ensuring optimal service continuity** while facilitating a smooth transition for our teams and partners. This ambitious project will extend until the **end of May**, with each department gradually relocating to our new facilities.

☀️ A New Era Begins

Since our establishment in **Chartres in 1954**, our company has always embraced change. This move is more than just logistics—it's a **strategic transformation** paving the way for **more innovation, greater efficiency, and even bigger ambitions!**

💡 Want to follow this transition and discover what this change means for you?
